Water Solutions

DUPONT

Large Commercial Reverse Osmosis Elements

DuPont Water Solutions launched first TapTec™ Large commercial reverse osmosis (RO) Elements to address the strong demand in the large commercial industry for affordable, reliable and technology-proven RO elements. DuPont*TapTec* LC HF 4040 is the best option for large commercial applications like water refilling stations, food service and restaurants, hotels and resorts, water vending, health care facilities, science laboratories, marinas and yachts and many more.

TapTec LC HF 4040 Large Commercial Reverse Osmosis Elements

- Ultra-high Permeate Flow at 2800 gallon per day
- Value for money, affordable price with excellent quality
- Quick stabilization
- DuPont* TapTec™, powered by more than 40 years of membrane innovation

Product Parameters

Product	Length (inches)	Diameter (inches)	Permeate Flow Rate gpd	Min. Salt Rejection (%)	Stabilized Salt Rejection (%)
LC HF-4040	40	3.9	2800	98.5	99

1. Permeate flow and salt rejection based on the following test conditions: 1500 ppm NaCl, 77°F (25°C), 15% recovery, pH 7, and applied pressure J5opsig.
2. Permeate flows for individual elements may vary +/-15%.
3. For the purpose of improvement, specifications may be updated periodically.

Worldwide Certifications

Certified to NSF/ANSI/CAN 61
